Your Smart Line for High Performance

A Sophisticated Workhorse

The FB-3 is a sophisticated workhorse, offering high ease of operation and superior printing quality. New from the inside out, the FB-3 represents the latest technology integrated into a new, ground-up designed platform.

Complete Automation

The ergonomically designed printing stations each includes five servos for complete automation of all adjustments including job save, job load, and job change, as well as pre-setting, impression settings, and side register load.

The dual axis servo transport system ensures that the FB-3 will continuously deliver the highest level of print reproduction, as well as unparalleled registration performance.

A Natural Addition

Other features include Nilpeter CLEANINKING system, quick-release anilox rollers, and plate cylinders, which - when combined with the available quick-change die-cutting system - make the FB-3 a natural addition to any lean printing environment.

SPECIFICATIONS mm (feet/inches)

FB-3

Web width, max.	350 mm (13 3/4")
Printing width, max.	350 mm (13 3/4")
Printing lengths, min./max.	190,5-635 mm (7 1/2"-25")
Press speed, max.	228 m/min. (750 FPM)
Repeat increments	3,175 (1/8" CP)
Reel diameter, unwind, max.	1016 mm (40")
Reel diameter, rewind, max.	1016 mm (40")
