LEAN Printing Performance

The FA-4* provides the competitive edge - with optimum efficiency and the highest level of printing quality. The newest member of the popular FA-Line is a streamlined and extremely easy-to-operate press.

The Leanest Performance in Today's Market

The new, innovative design features the shortest possible web path, Easy-Load of tooling, and the Nilpeter CLEANINKING system.

The Nilpeter PowerLink control and press management system enables the label and flexible packaging printer to achieve the leanest performance in today's competitive market. The FA-4* takes press management to the next level with full press management from the main panel, remote control on tablets, and full control from each printing unit. The FA-4* is fully prepared for short run jobs and smaller repeat lengths.

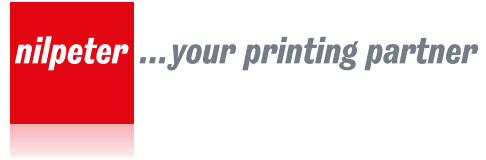

The Best Choice

The FA-4* tolerance standard and dot gain coverage are impeccable, making it the best choice for any quality-conscious printer. Available in 16", the new FA-4* can easily be combined with the Nilpeter ancillary program and value-adding units.

**Simple yet Sophisticated*
